THEME: CLEANING SURFACES IN THE HOME

INSTRUCTIONS TO THE TEACHER

- (a) *This paper consists of one practical task on **cleaning a plain wooden surface**.*
- (b) *The teacher should organize the learners in groups of 4 to 6 for this task.*
- (c) *The teacher will guide the groups to search for information on how to clean plain wooden surfaces.*
- (d) *Each group to compile a common procedure, tools and materials for cleaning plain wooden surfaces and **submit for scoring a week before the day of the practical**.*
- (e) *The teacher will guide the groups on the correct procedure of cleaning a plain wooden surface **after scoring the notes submitted**.*
- (f) *The practical task will be carried out in one session of not more than 1 hour.*
- (g) *Schools with large number of learners can organise the practical in sessions to enable the teacher to assess all the learners effectively.*
- (h) *The teacher will guide the learners in identifying a plain wooden surface to clean.*
- (i) *The teacher will guide the learners on how to improvise appropriate cleaning tools and materials where possible.*

NB: Schools are advised NOT to buy wooden surfaces, tools and materials for this task.

- (j) *The teacher to use the scoring guide provided to assess the learners as they carry out the task.*
- (k) *The teacher to provide each learner with a copy of the questionnaire at the end of the practical to respond to the questions.*
- (l) *The teacher will collect the filled questionnaire from each learner and score as per the scoring guide.*
- (m) *The teacher is encouraged to be as objective as possible when assessing and scoring the learner's work.*

NB: The teacher should ensure that learners observe safety while carrying out the practical task.

TASK: CLEANING A PLAIN WOODEN SURFACE

1.0. Before the Day of Assessment

- a) The teacher will guide the groups to search for information from digital and print media on how to clean a plain wooden surface and write notes on the procedure, tools and materials to be used.
- b) Each group to submit the notes to the teacher for scoring a week before the day of the practical.
- c) The teacher to guide the learners in assembling the tools and materials required to clean the plain wooden surface identified.

NB: The plain wooden surface should be of a reasonable size as the teacher deems appropriate.

2.0. On the Day of Assessment

- a) Each group to clean the identified plain wooden surface using the tools and materials assembled.
- b) Each group to clean, dry and store the tools and materials used during the practical.
- c) Each learner to fill the questionnaire at the end of the practical and submit to the teacher for scoring.

3.0. Instructions to the Teacher on the Day of Assessment

- a) The teacher will observe, assess and award scores using the scoring guide provided as the learners:
 - i) clean the plain wooden surfaces.
 - ii) clean, dry and store the tools and materials used during the practical.
- b) The teacher will provide each learner with a copy of the questionnaire attached.
- c) The teacher will ask the learners to fill the questionnaires after the practical and submit for scoring.
